The monument of "Motherland Calls" is monument that was built in memory of an USSR. The statue is placed in Volgograd, and means the victory of USSR in war with Nazi Germany. The monument looks like a woman with a sword standing straight. This statue is made of some sort of rock like granite or some thing like that.

Statue is standing in the Volgograd, the town in Russia. This city is not as big as a Moscow or Saint-Petersburg, but it has awesome climat and infrastructure. Volgograd was built on the river with links across whole European side of Russia.

I recommend you, tourist, visit this city not only for see Volga, but for see and that monument too, because the story of this country and town which was not that much time ago are tragic and filled with blood and sadness, ended up the great victory.
